

**Case Study:**

**Garnet Valley Middle School**

Garnet Valley School District is located in the southeast corner of Pennsylvania in Delaware County at 601 Smithbridge Rd, Glen Mills, PA, 19342. Garnet Valley enrolls more than 5,000 students in grades Kindergarten through 12 in five schools.

The mission of Garnet Valley Middle School is to foster a positive and supportive culture, which appreciates the uniqueness of each individual in the learning process. To develop life-long learners, they prepare students to be self-motivated, independent, reflective, and compassionate adolescents able to successfully evolve in the ever-changing world.

Corporate Interiors partnered with Garnet Valley Middle School to provide a space where students can interact and collaborate.

The goal of the project was to redesign a learning space within the library to effectively meet the needs of the students. The former learning center did not enhance the student learning experience. It did not support technology or provide platforms for quick and easy sharing of information. In order to get the most out of the learning center, Garnet Valley Middle School wanted a student-oriented space that fostered collaboration and encouraged creativity and innovation.

Corporate Interiors was able to provide solutions for the project to support the established needs. The fully integrated collaborative learning space includes five AVAlanche technology packages. Each individual station gives students space to work with one another on a variety of projects. They can share and display information on either of the five wall the mounted monitors through a tablet or laptop. Each station features a custom Terrain D-Shaped table that is easy to maintain and features Extron Teamwork power and data access within the worksurface.

Corporate Interiors also provided design specification, audio visual specification, delivery, installation, and project management for this outstanding project.

**Products Specified:**

- Terrain** - Technology D-Shaped tables, wall totem
- AVolution** - AVAlanche Audio Visual technology packages
- Extron** - Teamwork collaboration systems

**Services Provided:**

- Design Specification
- Audio Visual Specification
- Delivery / Installation
- Project Management
